

**George L. Hess Educational Complex**  
**Pre-Kindergarten**  
**Early Screening Inventory-Revised (ESI-R)**

The Early Screening Inventory-Revised is administered to all pre-kindergarten children in Hamilton Township School District during the first semester of the school year and is administered to at-risk students a second time during the second semester of the school year.

The Early Screening Inventory-Revised (ESI-R™) 2008 Edition provides a brief developmental screening instrument designed to be individually administered to children from 3.5 to 5.11 years of age. It identifies children who may need special education services in order to perform successfully in school. Research has shown the ESI-R to be highly reliable and valid.

**Features**

The instrument addresses developmental, sensory, and behavioral concerns in the following areas:

- Visual Motor/Adaptive
- Language and Cognition
- Gross Motor Skills

**Completion Time**

15–20 minutes per child.

The ESI-R 2008 Edition contains newly-designed score sheets to improve accuracy in scoring. The new Examiner's Manual includes two appendices that contain administration and scoring criteria for Spanish-speaking examiners.
